Tech Skills Mastery

Welcome to my brochure!

With a wealth of professional experience, I excel in translating business requirements into effective IT solutions, making me highly versatile and skilled. Throughout my journey, I have cultivated strong relationships across finance and technology organizations, facilitating seamless communication with team members across different locations.

My expertise extends beyond statistical and financial statement reporting, encompassing data validation and the development of technical training and user training programs. Additionally, I have successfully created various system processes and automation, leading to significant cost savings for my former employers, companies, and clients.

My ultimate goal is to aid my clients in achieving their objectives and enhancing overall efficiency. Should you require any further information, please do not hesitate to reach out. Have a wonderful day!

Climbing the ladder

Are you searching for a seasoned professional with a proven track record in handling extensive volumes of data, possessing a wealth of expertise in database design, architecture solutions, process automation, and performance tuning of complex procedures, all within the context of a fast-paced environment?

Look no further! I provide an array of specialized services to cater to your specific needs, including:

- ◆ **Database Design and Data Migration (ETL):** Streamline your data infrastructure and effortlessly transfer information between systems.
- ◆ **Project Management (SDLC/Agile):** Rest easy knowing that your projects will be expertly managed through their entire lifecycle.
- ◆ **Microsoft Office, Visio, and Project:** Leverage the power of Microsoft tools to optimize your operations.
- ◆ **Microsoft VBA Macros:** Harness the potential of automation with custom VBA macros.
- ◆ **Bridging the Gap:** Translate your business requirements into innovative IT
